In business, it's not enough to generate leads.

You need to **close deals** 

But handling objections, and competition isn't easy.

You need to **create trust**.

Here are 24 advanced ChatGPT prompts to help you close deals 

Jérémie Grandillon
the forge

1 – Persuasive sales pitches

“Develop a nuanced sales pitch for [Product/Service] targeting [Target Industry/Client Profile]. Integrate emotional appeal, logical argument, and social proof. Address [Common Objection] with specific data points and success stories.”

Pro Tip !

ChatGPT can generate good results solely based on the prompts themselves.

I wanted them to be usable by as many people as possible.

But, using the Advanced Data Analysis or Bing mode can provide even more value.
